## Education

### Private College of Engineering & Technology

Engineering Program

Tunisia

2023–2026

### Higher Institute of Computer Science

Bachelor's in Computer Science, Specialization: Software Engineering

Tunisia

2023

### Khaznadar High School

Baccalaureate in Computer Science

Tunisia

2019

## Skills

**Technologies:** React JS, Angular, Spring Boot, Maven, Hibernate

**DevOps:** Docker, Jenkins, Prometheus, Grafana

**Databases:** Sybase, MySQL, PL/SQL, Oracle

**Design:** UML

**Methodologies:** Agile, Scrum

**Languages:** C#, Java, Python, Typescript, HTML, CSS, JavaScript, C, C++, Unix

**Testing/Quality:** JUnit, Mockito, Postman, SonarQube

**Tools:** Jira, Trello, Git, AJIR, Genesys Cloud, Putty

**IDE:** Visual Studio, VS Code, IntelliJ, Eclipse

**Web:** REST

## Professional Experience

### Linedata Tunisia

Software Developer

09/2023–Present

- Analyzed and resolved issues across development, testing, pre-production, and production environments.
- Migrated applications from Sybase to Spring Boot and Java 17 to improve software architecture.
- Supervised interns, ensuring adherence to best development practices.
- Managed real-time stock market data dissemination, with continuous monitoring for data reliability.
- Designed innovative architectural solutions, integrating performance, security, and flexibility requirements.

### Neocortex

Final Project in Web Development

02/2023–05/2023

- Developed a web application for managing users, posts, and rankings.
- Implemented role and permission management using Spring Security.
- Stack: Spring Boot, Angular, MySQL

### Neocortex

Summer Internship in Web Development

06/2022–09/2022

- Created an administration dashboard for managing orders, menus, and clients for a restaurant.
- Stack: Angular, Firebase for authentication, database management, and hosting.

## Academic Projects

**Primary School Management System:** Java, FXML, JDBC - Application for managing teachers, students, courses,

and grades.

**Personal Website:** React JS - Project portfolio and CV with a modern, responsive interface.

**Mobile ToDo App:** React Native, Firebase - Task management app with data synchronization.

**Generic CRUD:** Spring Boot - CRUD service for entity and data management.

## Associative Life

---

**Codex Junior Enterprise:** President (2021–2022), Advisory Board Member (2022–2023)

**JCI Khaznadar:** Founding President (2017)

**Other Associations:** VP Interact Club Tunis Atlas (2016), Member of RADIO youth center (2018)

## Language Proficiency

---

**French:** Fluent

**English:** Intermediate

## Profile

---

Passionate and experienced web developer with a strong command of front-end and back-end development tools. Proficient in modern architectural designs such as hexagonal architecture and microservices. Experienced with Agile/Scrum work methodologies for efficient project management. Driven by innovation and continuous learning, dedicated to improving code quality, optimizing performance, and solving complex problems.
